<b>Risk 3</b>	<p>There is a risk that people in Wales are insufficiently engaged and enabled on action they can take to improve their health and wellbeing.</p> <p><i>Caused by</i> failure to provide people with sufficient quality information, motivation, choice and access to timely advice and services. <i>Resulting in</i> people feeling they are limited in exercising control over their health and wellbeing and avoidable poor health outcomes.</p>

### Risk Owner's Overview Assessment Status

Engaging with our population is central to better understanding health needs and empowering people to co-design public health solutions and become partners in their health and well-being. However, with significant impacts on the conditions for health resulting from the pandemic and more recently, the cost of living crisis, empowering our population becomes even more challenging and there is a risk of widening health inequalities unless actions taken involves working with our communities and using a proportionate universalism approach.

Actions are underway across organisational programmes, and all organisational strategic priority areas, to understand the views of our population (including young people) around factors that determine their health, and obtain proactive feedback from people we work with and for.
