Joining a meeting virtually

- Follow the guidance issued for the meeting in terms of cameras and sound set up.
- For attending livestreamed meetings remotely, follow the principles:

<p>Make sure you are using the right device</p>	<p>Please ensure that your devices are fully charged, or you are positioned close to a power supply.</p> <p>The Live Event feature within Teams works more effectively on a laptop - please do not use an iPad or tablet to join the livestream event. If you are joining the meeting in person you do not need to join the meeting electronically unless you are presenting / sharing documents on screen for any of the items.</p>
<p>Camera framing and surroundings (For remote attendance)</p>	<p>Backdrop - Make sure the background behind you is appropriate, and there are no whiteboards for example with any confidential information, as well as personal items such as photos that could be viewed by other participants. Use the 'blur' background feature if you do not want your background visible to the public.</p> <p>Framing - In terms of the view of the public, try and ensure that your laptop is resting on a table to ensure that the video feed is consistent and steady.</p> <p>Lighting - Adjust the lighting to ensure that your face is well lit and not in shadow. <i>Hint- if your back is to a window then pull the blind or curtains and rely on the room lighting.</i></p>

	<p>Background Noise - Remember to mute your microphone when not speaking, and to turn off/mute any mobile devices, beepers, etc.</p>
<p>Decide on your base for the meeting</p>	<p>If you are planning on dialling into the meeting with a colleague(s) in the same room, please ensure that you use your own separate laptop and headphones. You should not share the same laptop.</p>
<p>Join the meeting early</p>	<p>Please join the Livestream Event 15 minutes before the official start time of the meeting to ensure that your connection is working. Ensure your camera and microphone are working, and that they are correctly positioned.</p> <p>If when you join the Livestream Event you see '<i>The live event hasn't started</i>' - you have entered the meeting as a member of the public and will need to re-join using the link in the appointment or contact the Board Business Unit.</p>
<p>Chat Function</p>	<p>The Chat function should only be used only as a means to let the Chair of the meeting and the Board Business Unit know about a logistical issue or if you wish to raise a question.</p> <p>The Board is committed to openness and transparency. Members of the public cannot access the chat function, so please use it for those issues that the Chair can then voice, and that will then form part of the public record.</p> <p>You should also use the Chat Function if you are having technical difficulties or have to leave the meeting for any reason.</p> <p>The Chat can only be seen by those who are invited to the meeting, not by members of the public.</p> <p>Also use the Chat Function to indicate you want to speak on an item, as raise hand function does not work on live streaming.</p>
