

Annex A – Remit Letter Delivery

1	Remit letter deliverable	Public Health Wales Delivery
2	Promote healthy behaviours to the population, particularly around healthy weight, physical activity, and tobacco, through social marketing and partnership working at cluster level across Primary and Community Health Services through “healthy conversations” across the year. This includes promoting the benefits of health behaviours for mental well-being, including the neurodivergent population and dementia risk reduction.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
3	Support Welsh Government officials in making recommendations to Ministers about improving and promoting healthy eating and physical activity across Wales. This to include continued support for schools and pre-school settings with a focus on healthier eating and embedding physical activity, including through the implementation of the Welsh Network of Health and Wellbeing Promoting School and Pre-School Schemes, the ‘Daily Active’ approach to physical activity in schools; support for the curriculum and the review of Food and Nutrition Standards.	Delivered through IMTP milestones set out within Strategic Objectives 3.1 and Strategic Objectives 3.2
4	Work with Welsh Government to review and develop our public health approach to both gambling and alcohol	Delivered through IMTP milestones set out within Strategic Objectives 3.2, 3.4 and 3.6
5	Deliver the Healthy Working Wales programme, focusing on promoting good health and preventing ill-health by providing practical guidance and support for employers to create healthy and safe work environments and practices and take action 2 to normalise healthy behaviours. Ensure close partnership with Business Wales to increase the promotion of their business support services and maximise reach, as well as align with the delivery of our In-Work Support Service programme to provide occupational health support.	Delivered through IMTP milestones set out within Strategic Objectives 1.1
6	Provide expert advice and leadership on reintroduction of varenicline and endorsement of Cytisine as treatment options for smoking cessation services in Wales.	Delivered as business as usual and included within Service/function level plans
7	Support the development and implementation of the 2025-26 Healthy Weight Healthy Wales agreed delivery actions, including embedding and enhancing the whole system approach by working with NHS Wales partners.	Delivered through IMTP milestones set out within Strategic Objectives 3.5

8	Work with NHS Wales and other partners to support a 'National Mission' to tackle obesity in children and the development of a roadmap to identify key goals and measurement indicators to drive change and track progress	Delivered through IMTP milestones set out within Strategic Objectives 3.4 and 3.8
9	Support continuous improvement of the weight management pathway, with a focus on enhancing level 1 support through Healthy Weight, Healthy You digital weight management offer, completion of the review of Weight Management Services, providing support to health boards to deliver the minimum data set and producing reports to illustrate the national picture.	Delivered through IMTP milestones set out within Strategic Objectives 3.6
10	Support the work to develop preventative and treatment services during 2025/2026 utilising investment received through the gambling levy.	Subject to confirmation of funding from Welsh Government
11	Support the development and implementation of the 2024-26 Tobacco Control Delivery Plan, including evaluation, monitoring and understanding and synthesising data requirements	Delivered through IMTP milestones set out within Strategic Objectives 3.6 and 3.8
12	Ensure the completion of the roll-out of the Help Me Quit in Hospital System, including embedding monitoring and evaluation	Delivered through IMTP milestones set out within Strategic Objectives 3.6 and 3.8
13	Develop proposals for the Help Me Quit system to evolve into a nicotine addiction service, that supports all those with nicotine addiction to quit. This to include establishing a project group to advise on how the system needs to change to support those addicted to nicotine in any form.	Delivered through IMTP milestones set out within Strategic Objectives 3.7
14	Explore reintroduction of carbon monoxide monitoring in the community for motivational support as part of Help Me Quit service	Delivered as business as usual and included within Service/function level plans
15	Undertake a review of the tobacco cessation system in all health boards, akin to the All Wales Weight Management Pathway review, and provide Welsh Government with recommendations to ensure a common baseline service across Wales.	Delivered through IMTP milestones set out within Strategic Objectives 3.6
16	Synthesise evidence and support where necessary with the potential legislative changes to support a healthy food environment, including current planned regulations and options for future taxation powers to drive reformulation.	Delivered through IMTP milestones set out within Strategic Objective 3.2
17	Deliver and develop evidence-based, equitable-access, national population and targeted screening programmes in line with 4 UK National Screening Committee (UK NSC) and Welsh Government	Delivered through IMTP milestones set out within Strategic Objective 5.4

	policy. Measures to include: an increase in the proportion of bowel and breast cancers diagnosed at early stage; a reduction in the incidence of cervical cancers; and a reduction in sight loss from diabetic retinopathy.	
18	In collaboration with partners within the NHS Executive, Strategic Programme for Primary Care and Welsh Government, identify and lead prevention opportunities for screening, early intervention and proactive management of conditions known to increase the risk of cardiovascular disease, such as screening for those at high risk of stroke, for example, atrial fibrillation, hypertension, diabetes and high cholesterol.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
19	Provide targeted interventions and appropriate marketing and campaign activity to improve screening uptake rates across all population groups, but particularly in groups in which uptake is lowest, in line with the objectives and strategic priorities identified by Welsh Government and, where applicable, the NHS Executive. This should include proportionate evaluation to inform in-programme response and future programmes and activity.	Delivered through IMTP milestones set out within Strategic Objective 5.4
20	Deliver on the first phase of scoping work for a targeted lung screening programme in Wales in line with the recommendation by the UK NSC. An interim report to be delivered to Welsh Government by the end of March 2025 and final report by September 2025	Delivered through IMTP milestones set out within Strategic Objective 5.4
21	Complete the optimisation of the bowel screening programme by July 2025	Delivered through IMTP milestones set out within Strategic Objective 5.4
22	Undertake robust surveillance of all national immunisation programmes, ensuring data is available and analysed in a timely way to support interventions or response from Welsh Government, health boards and the NHS Executive.	Delivered as business as usual and included within Service/function level plans
23	Provide targeted interventions and appropriate marketing and campaign activity to improve uptake rates across all population groups for vaccinations and immunisations in line with the objectives and strategic priorities identified by Welsh Government and, where applicable, the NHS Executive. This should include proportionate evaluation to inform inprogramme response and future programmes and activity.	Delivered as business as usual and included within Service/function level plans

24	Stand up new surveillance systems as required, for example when new vaccination programmes are introduced. In particular, for 2025-26 surveillance arrangements for the new routine mpox and gonorrhoea vaccination programmes and changes to the childhood immunisation programme	Delivered as business as usual and included within service/function level plans
25	Provide clinical leadership to support the delivery of the National Immunisation Framework achieving the required take up rates, including improved public vaccination literacy, vaccine equity and guidance and training for all national vaccination programmes.	Delivered as business as usual and included within service/function level plans
26	Provide leadership to support the delivery of agreed national actions to support the elimination of hepatitis/TB/HIV in line with the WHO's 2030 elimination agenda, and the specific actions set out by Welsh Government in its disease-specific oversight groups, Welsh Health Circulars and the HIV Action Plan.	Delivered through IMTP milestones set out within Strategic Objective 5.2
27	Provide surveillance including annual reports on the prevention, diagnosis and treatment of hepatitis B, hepatitis C, HIV and TB.	Delivered through IMTP milestones set out within Strategic Objective 5.2
28	Improve awareness through national coordinated raising initiatives, factoring in any potentially join up and links with similar activity in relation to substance misuse, sexual health, vaccination, HIV elimination and inclusion health. This to include promotion of online BBV testing.	Delivered through IMTP milestones set out within Strategic Objective 5.2
29	Use national co-ordination posts dedicated to Hepatitis C elimination to support the improvement of testing in prisons and probation services, substance misuse services and community pharmacies.	Delivered through IMTP milestones set out within Strategic Objective 5.2
30	Ensure online BBV testing continues to be sustainable and made more accessible, including an option for rapid test and "click and collect" services.	Delivered through IMTP milestones set out within Strategic Objective 5.2
31	Expand roll-out of community BBV testing kits through community assets and groups, faith communities and support services to reach the needs of underserved populations.	Delivered through IMTP milestones set out within Strategic Objective 5.2
32	Post Hepatitis C re-engagement programme, - develop platform for partners to regularly check individuals engaged with treatment services	Delivered as business as usual and included within service/function level plans
33	Consider best practice models in use in Wales, elsewhere in the UK and internationally, such as use of mobile testing facilities, testing in	Delivered as business as usual and included within service/function level plans

	settings such as probation services and rapid medication pathways and support the development and dissemination of guidance to delivery partners	
34	Review delivery partner training needs and develop training programmes to support the disease elimination agendas.	Delivered as business as usual and included within service/function level plans
35	Continue to develop the national data platforms/information monitoring tools to allow all key partners to monitor progress towards elimination	Delivered through IMTP milestones set out within Strategic Objective 5.2
36	Continue to develop the national data platforms/information monitoring tools to allow all key partners to monitor progress towards elimination	Delivered through IMTP milestones set out within Strategic Objective 5.2
37	Work with UKHSA to support evidencing of WHO elimination targets	Delivered through IMTP milestones set out within Strategic Objective 5.2
38	Deliver on the PHW national role in health protection, including support to regional health protection teams in line with the National Health Protection Framework. Share good practice to drive improvements 8 and develop through collaboration national approaches where appropriate.	Delivered as business as usual and included within service/function level plans
39	Support WG and the NHS Exec, health boards and local authorities to work together on border health security measures that can be scaled rapidly to provide an effective response to an infectious disease threat. Support the 4N work to strengthen UK-wide border health security under the Common Framework.	Delivered as business as usual and included within service/function level plans
40	Provide expert advice on and, as appropriate, undertake health protection activities at the borders including seaports, airports and rail crossings to aid the local detection and management of outbreaks and help prevent wider community transmission	Delivered as business as usual and included within service/function level plans
41	Undertake robust all hazards surveillance on communicable diseases and environmental public health harms, ensuring data is available in a timely way to enable any necessary interventions or response from Welsh Government, health boards and the NHS Executive	Delivered as business as usual and included within service/function level plans
42	Provide reports and updates to the CMO Health Protection Advisory Group and subgroups as required	Delivered as business as usual and included within service/function level plans
43	Maintain the NHS Wales laboratory system to deliver microbiology services to the NHS in accordance with expected standards and	Delivered as business as usual and included within service/function level plans

	protocols. The laboratory system to have the capability to monitor, warn and prepare for public health threats including the ability to detect rare, serious infections, deliver infectious disease surveillance control and reporting to enable testing to be scaled up at pace.	
44	Identify and stand up new surveillance systems as required, for example surveillance to support the One Health approach. Proposals for new surveillance 9 should be presented to the Communicable Disease Sub-Group of HPAG..	Delivered as business as usual and included within service/function level plans
45	Work to maintain and develop a secure digital infrastructure to enable sharing of high-quality data securely at pace lawfully both internally and externally with relevant partners for health protection purposes and in particular in the event of emergencies	Delivered through IMTP milestones set out within Strategic Objective 7.8 and 7.9.
46	Develop the reporting arrangements from the Communicable Disease Intelligence Sharing Group including lessons identified reports to the wider health protection system via the HPAG governance structures	Delivered as business as usual and included within service/function level plans
47	Support the priorities, implementation, and reporting requirements of the HPAG EPH sub-group workplan. This includes robust environmental incident planning, preparedness and response in line with Managing public health risks from environmental incidents: Guidance for Wales.	Delivered as business as usual and included within service/function level plans
48	Develop environmental hazards (including climate risk) health surveillance; and evidence-based advice and support for the development and implementation of Welsh Government policies to reduce risks from environmental hazards such as air and water pollution and maximise opportunities for health and well-being	Delivered as business as usual and included within service/function level plans
49	Support the four nations work on a UK level including the activity under the Public Health Protection and Health Security Common Framework, the Global Health Forum and other structures.	Delivered as business as usual and included within service/function level plans
50	Identify and stand up new surveillance systems as required, for example surveillance to support the One Health approach. Proposals for new surveillance 9 should be presented to the Communicable Disease Sub-Group of HPAG..	Delivered as business as usual and included within service/function level plans

51	Lead Common Framework workstreams focussed on the Health Protection Workforce, Emergency Preparedness 10 Resilience and Response, and Surveillance.	Delivered as business as usual and included within service/function level plans
52	Support the work to respond to the COVID19 public inquiry recommendations.	Delivered through IMTP milestones set out within Strategic Objective 5.5
53	Develop a system to capture lessons learned from communicable diseases outbreaks and incidents and exercises including sharing and publication	Delivered as business as usual and included within service/function level plans
54	Develop a protocol for working up guidance and sign off across settings and for the public when threats emerge.	Delivered through IMTP milestones set out within Strategic Objective 5.2
55	Continuous improvement of managing public health risks from environmental incidents: Guidance for Wales based on lessons learnt.	Delivered as business as usual and included within service/function level plans
56	Provide core health protection capabilities including but not limited to surveillance, diagnostics, case management and contact tracing, and expert advice. Ensure these capabilities are scalable in response to incidents and in the event of future pandemics and major epidemics.	Delivered as business as usual and included within service/function level plans
57	Protect the public from communicable disease outbreaks and incidents as set out in the Outbreak Control Plan for Wales and from environmental incidents as set out in PHW's guidance on managing public health risks from environmental incidents. This to include respiratory, vector-borne, contact, food and/or water borne and sexual and/or blood-borne transmission routes.	Delivered as business as usual and included within service/function level plans
58	Undertake robust all hazards surveillance on communicable diseases, ensuring data is available in a timely way to enable any necessary interventions or response from Welsh Government, health boards and the NHS Executive.	Delivered as business as usual and included within service/function level plans
59	Meet all obligations under the Civil Contingencies Act and provide timely public health advice as required to Welsh Government and the NHS Executive in an emergency response situation.	Delivered as business as usual and included within service/function level plans
60	Work with other Welsh and UK public bodies in particular the NHS Executive, to exercise and test systems and plans in the context of preparedness, resilience planning and emergency response.	Delivered through IMTP milestones set out within Strategic Objective 5.2

61	In line with PHW's public health protection leadership role, deliver analysis of learning points from exercises to support development activities across the health protection system	Delivered through IMTP milestones set out within Strategic Objective 5.3
62	Work with the Welsh Government, NHS Executive and the wider health protection system to develop pandemic response plans across all routes of transmission, building on the Four Nations Pandemic Respiratory Plan	Delivered through IMTP milestones set out within Strategic Objective 5.3
63	Support Welsh Government on wider pandemic planning including the development and implementation of a Pandemic Preparedness Framework, subject to Cabinet Secretary approval, through engagement with the Pandemic Preparedness Board and ongoing work on a capabilities assessment for Wales.	Delivered as business as usual and included within service/function level plans
64	Support the Welsh Government and NHS Executive on developing plans and mitigation for responding to wider NSRA threats and respond rapidly to the public health impacts of all non-infectious disease 12 external threats and incidents including any CBRN events. This includes working with UKHSA on the identification and assessment of public health impacts for threats related to CBRN and technical, scientific and clinical advice to inform planning and during incident response	Delivered as business as usual and included within service/function level plans
65	Develop testing, pathogen genomics and laboratory arrangements that can scale up to respond to future threats and hazards including pandemics. These arrangements will be tested through the Tier 1 Pandemic Exercise Pegasus in Autumn 2025	Delivered through IMTP milestones set out within Strategic Objective 5.1
66	Engage fully in Exercise Pegasus, due to be held in Autumn 25/26.	Delivered through IMTP milestones set out within Strategic Objective 5.2
67	Maintain a client management and reporting system for notifiable and communicable diseases with the ability to scale up to respond to future risks including pandemics. Deliver on any agreed actions following the Alpha stage work to develop the current Tarian system, working in collaboration with partners across the system to ensure ability to scale up to respond to future risks including pandemics.	Subject to confirmation of funding from Welsh Government
68	Continue to evolve, deliver and report against the PHW Decarbonisation Action Plan, and expand plans to bring Adaptation Planning and actions into scope.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025

69	Continue to report organisational emissions into the Public Sector Reporting process.	Delivered as business as usual and included within service/function level plans
70	Develop and implement clear plans and action to improve surveillance and evidence on the risks and opportunities to population health, and health and social care delivery, from climate change.	Delivered through IMTP milestones set out within Strategic Objective 6.3
71	Provide evidence-based advice and support to inform policies to reduce risks and maximise health opportunities to both population health, and health and social care delivery, from climate change.	Delivered as business as usual and included within service/function level plans
72	Visible public health leadership on the public health risks and opportunities from climate change including development and delivery of a long-term adverse weather plan and guidance including impactful public messaging, education and engagement of the H&SC system	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
73	Working with the Strategic Programme for Primary Care, continue to coordinate work across primary care to take action against climate change and mitigate health impacts including the coordination of the Greener Primary Care Framework for Wales.	Delivered through IMTP milestones set out within Strategic Objective 4.4
74	Continue to provide leadership to embed sustainable healthcare principles in practice with a focus on prevention, self care, medicines optimisation, efficiencies and waste and low carbon alternatives.	Delivered through IMTP milestones set out within Strategic Objective 4.4
75	Support the development and implementation of a health and social care climate adaptation indicator suite.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
76	Delivery of a long-term adverse weather plan and guidance including impactful public messaging, education and engagement of the Health and Social Care system	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
77	Work in partnership with the NHS to ensure equitable access to health services and in particular to mitigate the impacts of living in poverty for individuals, children and families on accessing health services.	Delivered as business as usual and included across a number of sections of our IMTP
78	Work with Welsh Government and Neurodivergence leads to ensure alignment with whole system approach to improving outcomes for neurodivergent population, through inclusive approaches and reasonable adjustments	Business as usual - we will continue to ensure that all of the services that we directly deliver are focused on improving outcomes for the neurodivergent population.

79	Provision of evidence-based advice and support to inform the development and implementation of policies to reduce population risks and inequalities from environmental hazards such as air and water pollution, and promote environmental assets which can enhance and improve health. This includes participating in the development, delivery, and report-gathering of the annual HPAG Environmental Public Health sub-group workplan and providing expert public health advice to support the ongoing implementation of the Environment (Air Quality and Soundscapes) (Wales) Act 2024.	Delivered through IMTP milestones set out within Strategic Objective 5.3
80	Develop and continue to implement robust environmental public health surveillance with a focus on health inequalities, building in a mechanism for seeking iterative feedback from key stakeholders on the usefulness of report format and content, to maximise benefits of data gathered.	Delivered as business as usual and included within service/function level plans
81	Support the priorities in More Than Just words, mainstreaming Welsh language considerations into planning and policies, including a focus on Welsh Language services in relation to the priority groups identified in More Than Just Words – such as older people, children, mental health, 15 speech therapy, learning difficulties, and stroke services.	Delivered as business as usual and included within service/function level plans
82	Provision of Health Impact Assessment guidance for public bodies and the production of a plan of support-activities designed to help public bodies comply with their duties in relation to HIAs.	Delivered through IMTP milestones set out within Strategic Objective 1.3
83	Work with NHS Health Inequalities group to review priorities for the short and medium term, building on the work to date on including reviewing data sets and taking action to respond to gaps, particularly in relation to the protected characteristics, and mainstreaming the use of population health management by NHS bodies to inform targeted prevention programmes	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
84	Implement specific actions and strategies aligned to Welsh Governments current and proposed National Equality Diversity and Inclusion plans, which seek to eliminate the impact of health inequalities across all Protected Characteristics groups. These national plans include; The Anti-racist Wales Action plan, The LGBTQ+ Plan and following consultation, The Disability Rights Plan.	Delivered as business as usual and included across a number of sections of our IMTP

85	Support specific Welsh Government requests to synthesise the evidence and develop summary briefings on key cross government strategic interests including the wellbeing economy, poverty and the cost of living, healthy indoor and outdoor environments, climate change, health inequalities, health economics and investment in prevention, including 16 secondary prevention and self-care public behaviours.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
86	To facilitate and support the adoption and monitoring of Healthy Travel Charters among employers across all sectors in all parts of Wales and work with partners to deliver the actions in the National Active School Travel Plan, supporting the achievement of participation of at least 60% of primary schools in each local authority and 60% of KS2 children in the Hands up Survey, and promoting cleaner air around schools.	Delivered through IMTP milestones set out within Strategic Objective 3.1
87	Support areas of collaboration and related deliverables under the Renewal of the Memorandum of Understanding between WHO/EUROPE and the Welsh Government; in the areas of health equity and rights, investment for health and wellbeing, sustainable development and prosperity for all. This will include: progressing the Health Equity Solutions Platform for Wales o continuing to develop, pilot and share innovative approaches and solutions for policy and action o establishing Wales as a live innovation site for enabling and progressing Well-being Economies.	Delivered through IMTP milestones set out within Strategic Objective 1.3 and 4.2
88	Capture robust and timely equality information within data and evidence on all Public Health topics published by PHW, collaborating closely with the Welsh Government to use the data to make improvements and prioritise actions to reduce disparities of outcomes.	Delivered as business as usual and included within service/function level plans
89	Through the Healthcare Associated Infection, Antimicrobial Resistance & Prescribing Programme support the NHS in Wales to reduce the burden of healthcare associated infections and antibiotic resistance across Wales. This includes delivery through feedback of surveillance data and the promotion of appropriate antimicrobial prescribing and interventions to prevent the spread of infections.	Delivered as business as usual and included within service/function level plans
90	Lead and drive the implementation of the highest achievable standards of antimicrobial stewardship within health services in	Delivered through IMTP milestones set out within Strategic Objective 5.2

	Wales. This will include national and regional level input and support in the development and management of the Wales AMR programme of work to deliver the UK AMR five-year plan published in May 2024 and associated targets.	
--	--	--

91	Provide infection prevention and control (IPC) and public health advice for the health and social care system including the NHS Executive, health boards, local authorities and practitioners.	Delivered as business as usual and included within service/function level plans
92	Support IPC improvement and implementation of best practice in the NHS in Wales including engagement with the other nations of the UK and internationally to develop national IP&C guidance and policies for Wales.	Delivered as business as usual and included within service/function level plans
93	Provide on-going awareness especially in education through the provision of bilingual resource including e-Bug.	Delivered as business as usual and included within service/function level plans
94	Provision of high quality and timely clinical and technical advice and support across multiple levels of the Wales AMR programme including: <ul style="list-style-type: none"> o To groups within the AMR programme governance structure, for example the Delivery Oversight Group and the Human Health Delivery Group. 18 o Representing the Wales AMR control programme in UK technical advisory groups. 	Delivered as business as usual and included within service/function level plans
95	Support the safe reduction of the inappropriate use of PPE through the provision of appropriate advice and guidance to improve efficiency and reduce waste.	Delivered as business as usual and included within service/function level plans
96	Support the ongoing delivery of the national mandatory licensing scheme for special procedures under part 4 of the Public Health (Wales) Act 2017, including revisions, as appropriate, to the Public Health Wales-produced guidance document “Infection Prevention and Control Standards for Special Procedures in Wales”.	Delivered as business as usual and included within service/function level plans
97	Deliver the First 1000 Days Programme (ensuring alignment with Welsh Government), including delivery of the successor to Bump, Baby and	Delivered through IMTP milestones set out within Strategic Objective 2.2

	Beyond to meet the health information needs of parents during pregnancy and the early years.	
98	Hosting of the ACE Hub Wales and support its delivery of programme of work as set out in the separate grant offer letter.	Delivered as business as usual and included within strategic priority 3
99	Provide on-going support including adding to the evidence base for Flying Start programme (including speech language and communication), Families First, positive parenting support and ECPLC.	Delivered as business as usual and included within service/function level plans
100	Provide ongoing support for national programmes supporting children's health, including A Healthy Child Wales Programme (0-16 years old), Early Childhood Play Learning and Care Plan (ECPLC); Families First; Flying Start and early years interventions (including speech language and communication), healthy eating (e.g., Nutrition Skills for Life), promotion of the principles of positive parenting including assurance of the efficacy of approaches, assessments and services which support children, young people and families during childhood.	Delivered through IMTP milestones set out within Strategic Objective 2.6 and 3.4
101	To provide expert leadership in supporting collaboration to address child poverty to deliver accessible and joined up public health services to meet community needs and the delivery of kind, compassionate and non-stigmatising services.	Delivered through IMTP milestones set out within Strategic Objective 1.1
102	Work with Welsh Government and RPB NYTH/NEST leads to ensure alignment of baby, child and young person focused work with the NYTH/NEST framework. Including references to the key principles of NYTH/NEST, signposting and integration with the NYTH/NEST Self-Assessment Tool and use of NYTH/NEST training.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
103	Finalise the refresh the current Breastfeeding action plan into proposals for an Infant feeding plan, incorporating current progress on implementation and population behaviour change as part of Healthy Weight, Healthy Wales commitment. Implement and deliver agreed priorities within the plan.	Subject to confirmation of funding by Welsh Government
104	Continue to support the review of the Healthy Start Scheme in line with Welsh Government requirements	Delivered through IMTP milestones set out within Strategic Objective 3.4
105	Working with Welsh Government colleagues, continue the work that is supporting schools' understanding of key health and wellbeing issues to inform their curriculum design, building on work on a toolkit that supports the flow of information into schools.	Delivered through IMTP milestones set out within Strategic Objective 3.1
106	Support delivery of the Women's Health Plan	Delivered through number of sections of IMTP, including 5.4 and 4.1, and through business as usual

107	Support the delivery of improved sexual health delivery in Wales, contributing to system improvements, including the reduction in sexually transmitted disease and unwanted pregnancies.	Delivered through IMTP milestones set out within Strategic Objective 5.2
108	Deliver the promotion and provision of contraception and STI testing and treatment to include actions to support the priority on women's health.	Delivered through IMTP milestones set out within Strategic Objective 5.2
109	Develop an understanding of the behavioural changes driving sexual health trends in Wales and look to tackle through evaluated educational and informational interventions.	Delivered through IMTP milestones set out within Strategic Objective 5.2 and business as usual
110	Undertake collaborative work to address the health inequalities related to sexual health.	Delivered through IMTP milestones set out within Strategic Objective 5.2 and business as usual
111	Support the actions contained in the Wellbeing Chapter of the Mental Health strategy, including ongoing support and evaluation of the Hapus Programme and support efforts to monitor and evaluate population wide mental wellbeing. This includes developing the evidence around reducing the incidence of mental ill health	Delivered through IMTP milestones set out within Strategic Objective 2.4
112	Support preventative actions in the Suicide and Self-harm Prevention Strategy and continue to develop the Real Time Suspected Suicide Surveillance System and engage with networks to inform responses.	Delivered as business as usual and included within service/function level plans
113	Support delivery of the Welsh Government Programme for Government commitment on a National Framework for Social Prescribing. This includes embedding it in community frailty, mental health and rehabilitation services, particularly AHPs who set programme goals and tend to lead supervision/ oversight of social prescribing providers	Delivered through IMTP milestones set out within Strategic Objective 4.1
114	Deliver on the Programme Level Agreement with Welsh Government covering research & analytical support and policy support on substance misuse.	Delivered through IMTP milestones set out within Strategic Objective 3.6
115	Continue to develop the Real Time Suspected Suicide Surveillance System and engage with networks to inform responses.	Delivered as business as usual and included within service/function level plans
116	develop with strategic partners a suicide cluster response protocol for wales	Support to partners provided as part of business as usual
117	Undertake a substance misuse health needs assessment	Delivered through IMTP milestones set out within Strategic Objective 3.6
118	Provide programme support to the Strategic Programme for Primary Care via the PHW Primary and Community Care Innovation and Development Hub	Delivered through IMTP milestones set out within Strategic Objective 4.2

119	Delivery of national dental public health functions; and provision of dental public health specialist advice and support to NHS organisations and others oral health stakeholder in Wales (as set out in WHC(2012)32).	Delivered through IMTP milestones set out within Strategic Objective 4.5
120	Work in partnership with health boards and national programmes (e.g. SPPC, 6 Goals, MH) to align the planning and delivery of integrated health and social care community-based services to support people to stay well, avoid inappropriate hospital admission and to return home from hospital promptly to recover	Delivered through IMTP milestones set out within Strategic Objective 4.5 and 4.6
121	Support the Cardiovascular and Diabetes Strategic Clinical Networks in systematic efforts to deliver agreed secondary prevention priorities across the diabetes pathway and to reduce the risks of poor outcomes linked to preventable cardiovascular disease and diabetes	Delivered through IMTP milestones set out within Strategic Objective 4.3
122	Work with healthcare organisations to interpret population health data and evidence to support planning and review effectiveness and cost-effectiveness of a range of interventions, including in relation to specific pathways of care	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
123	Support the ongoing rollout of the digital offer of targeted health and wellbeing advice to those on NHS Wales waiting lists, in partnership with the implementation of the 3Ps policy, meeting trajectories for take up to be agreed with Ministers.	Further discussion required with Welsh Government on scope as set out in letter submitted on 7 March 2025
124	Implement the WHC/2023/026 NHS Framework for Research and Development– Research Matters – What excellence looks like in NHS Wales, to embed and integrate research into all aspects of PHW activities.	Delivered as business as usual and included within service/function level plans
125	Develop robust plans based on the 10 pillars of the framework working collaboratively with a range of partners working collaboratively with a range of partners, for instance, Health and Care Research Wales, higher education providers, research agencies and funders, third sector organisations, life science companies and the public.	Delivered as business as usual and included within service/function level plans
126	Have an up-to-date research and evaluation strategy, with aligned implementation plans and continuous progress monitoring that reflects policy and public priorities and promotes research as a driver of innovation and improvement in health and social care	Delivered through IMTP milestones set out within Strategic Objectives 7.4 and 7.8 and through business as usual
127	Utilise behavioural insight and Time to Talk Public Health surveys to support policy developments.	Delivered through IMTP milestones set out within Strategic Objectives 7.2 and 7.8.

128	Continue to work together with partners under Genomics Partnership Wales to harness the potential of genomics to improve the health, wellbeing and prosperity of the people of Wales and delivery of Wales Genomics Plan	Delivered through IMTP milestones set out within Strategic Objectives 5.1, 7.4 and 7.9
