

Template Equality & Health Impact Assessment for Risk Management Policy and Procedure

Part 1

Please answer all questions:-

1.	For service change, provide the title of the Project Outline Document or Business Case and Reference Number	Not applicable.
2.	Name of Clinical Board/Corporate Directorate and title of lead member of staff, including contact details	Nursing, Quality and Integrated Governance Danielle Gething – Head of Risk Danielle.gething@wales.nhs.uk
3.	Objectives of strategy/ policy/ plan/ procedure/ service	This policy sets out the organisational requirements for dealing with corporate risk management.
4.	Evidence and background information considered. For example • population data • staff and service users data, as applicable • needs assessment • engagement and involvement findings • research • good practice guidelines • participant knowledge	This has been widely consulted upon throughout the organisation, from Board level to operational and support staff. It follows the good practice defined in International Standard ISO31000 Risk Management.

	• list of stakeholders and how stakeholders have engaged in the development stages • comments from those involved in the designing and development stages Population pyramids are available from Public Health Wales Observatory and the 'Shaping Our Future Wellbeing' Strategy provides an overview of health need.	
5.	Who will be affected by the strategy/ policy/ plan/ procedure/ service Consider staff as well as the population that the project/change may affect to different degrees.	All staff are required to comply with this policy.

Part 2- Equality and Welsh language

6. EQIA / How will the strategy, policy, plan, procedure and/or service impact on people?

Questions in this section relate to the impact on people on the basis of their 'protected characteristics'.

How will the strategy, policy, plan, procedure and/or service impact on:-	Potential positive and/or negative impacts (unintended consequences) Opportunities or gaps	Action taken by Directorate. Make reference to where the mitigation is included in the document, as appropriate This column is to be updated in future reviews	Recommendations for improvement/ mitigation/ identified gaps or opportunities
6.1 Age For most purposes, the main categories are: • under 18; • between 18 and 65; and • over 65	The policy and procedure protects staff and the population in general.		None, will be monitored on an ongoing basis.
6.2 Persons with a disability as defined in the Equality Act 2010 Those with physical impairments, learning disability, sensory loss or impairment, mental health conditions, long-term	As above but in addition to this, risks to those who may be defined with a disability under the Equality Act 2010 can be identified and recorded on Datix to ensure they are adequately protected if a		None, will be monitored on an ongoing basis.

How will the strategy, policy, plan, procedure and/or service impact on:-	Potential positive and/or negative impacts (unintended consequences) Opportunities or gaps	Action taken by Directorate. Make reference to where the mitigation is included in the document, as appropriate This column is to be updated in future reviews	Recommendations for improvement/ mitigation/ identified gaps or opportunities
medical conditions such as diabetes	risk was to occur and for control measures or actions to be put in place to mitigate the risks.		
6.3 People of different genders: Consider men, women, people undergoing gender reassignment NB Gender-reassignment is anyone who proposes to, starts, is going through or who has completed a process to change his or her gender with or without going through any medical procedures. Sometimes referred to as Trans or Transgender	None.		None.

How will the strategy, policy, plan, procedure and/or service impact on:-	Potential positive and/or negative impacts (unintended consequences) Opportunities or gaps	Action taken by Directorate. Make reference to where the mitigation is included in the document, as appropriate This column is to be updated in future reviews	Recommendations for improvement/ mitigation/ identified gaps or opportunities
6.4 People who are married or who have a civil partner.	None.		None.
6.5 Women who are expecting a baby, who are on a break from work after having a baby, or who are breastfeeding.	None.		None.
6.6 People of a different race, nationality, colour, culture or ethnic origin including non-English speakers, gypsies/travellers, migrant workers	None.		None.
6.7 People with a religion or belief or with no religion or belief.	None.		None.

How will the strategy, policy, plan, procedure and/or service impact on:-	Potential positive and/or negative impacts (unintended consequences) Opportunities or gaps	Action taken by Directorate. Make reference to where the mitigation is included in the document, as appropriate This column is to be updated in future reviews	Recommendations for improvement/ mitigation/ identified gaps or opportunities
The term 'religion' includes a religious or philosophical belief			
6.8 People who are attracted to other people of: - the opposite sex (heterosexual); - the same sex (lesbian or gay); - both sexes (bisexual)	None.		None.
6.9 People according to their income related group: Consider people on low income, economically inactive, unemployed/workless, people who are unable to work due to ill-health	None.		None.
6.10 People according to where they live:	None.		None.

How will the strategy, policy, plan, procedure and/or service impact on:-	Potential positive and/or negative impacts (unintended consequences) Opportunities or gaps	Action taken by Directorate. Make reference to where the mitigation is included in the document, as appropriate This column is to be updated in future reviews	Recommendations for improvement/ mitigation/ identified gaps or opportunities
Consider people living in areas known to exhibit poor economic and/or health indicators, people unable to access services and facilities			
6.11 Consider any other groups and risk factors relevant to this strategy, policy, plan, procedure and/or service	All staff with NADEX accounts have the ability to report risks on Datix. For any staff that can't use Datix can identify risks through their line manager		None, will be monitored on an ongoing basis.
6.12 Welsh Language			
There are 2 key considerations to be made during the development of a policy, project, programme, service to ensure there are no adverse effects and/or a positive or increased positive effect on: (please note these will continue to be reviewed to ensure Public Health Wales fulfils their duties to comply with one or more standards outlined within the Welsh Language Standards (No 7) Regulations 2018)			
Opportunities for persons to use the Welsh language			

How will the strategy, policy, plan, procedure and/or service impact on:-	Potential positive and/or negative impacts (unintended consequences) Opportunities or gaps	Action taken by Directorate. Make reference to where the mitigation is included in the document, as appropriate This column is to be updated in future reviews	Recommendations for improvement/ mitigation/ identified gaps or opportunities
Treating the Welsh language no less favourably than the English language	For staff who communicate using Welsh Language can identify through their line manager.		None, will be monitored on an ongoing basis. Welsh Language Team have confirmed that there is currently no requirement for an internal IT system to be in Welsh.

Part 3 – Health

Questions in this section relate to the impact on the health and wellbeing outcomes of the population **and** specific population groups who could be more impacted than others by a policy/project/proposal.

The part of the assessment identifies;

- which specific groups in the population could be impacted more (inequalities)
- what those potential impacts could be across the wider determinants of health framework?
- Potential gaps, opportunities to maximise positive H&WB outcomes
- Recommendations/mitigation to be considered by the decision makers

7. Identification of specific population groups

Use the WHIASU Population Groups checklist as a reference to identify the population groups who could be more impacted than others by a policy/project/proposal. The check list can be found on the PHW Integrated EqHIA guidance pages (requires link to PHW Intranet pages for additional information and resources)

The groups listed have been identified as more susceptible to poorer health and wellbeing outcomes (health inequalities) and therefore it is important to consider them in a HIA assessment. In a HIA, the groups identified, as more sensitive to potential impacts will depend on the characteristics of the local population, the context, and the nature of the proposal itself.

7.1 Groups identified	Rational/explanation
None.	Not applicable.

Assessment

Complete the wider determinants framework table below providing rational/evidence where appropriate:

1. Consider how the proposal could impact on the population and specific population groups identified above (positive/negative) for each of the wider determinants (the bullets under each determinant are there as a guide)
2. Record any unintended consequences (negative impacts) and/or gaps identified
3. Record any positive impacts or missed opportunities to maximise positive health and wellbeing outcomes
4. identify and record mitigation/recommendations where appropriate

Please note you may find that not all determinants are relevant to the project/plan however recording N/A is not acceptable a rational or evidence should be explained/referenced

Wider determinant for consideration	Positive impacts or additional opportunities	Unintended consequences or gaps	Population groups affected	Mitigation/recommendations
7.2 Lifestyles • Diet/nutrition/breastfeeding • Physical activity	The appropriate identification and management of risks			

• Use of alcohol, cigarettes, e-cigarettes • Use of substances, non-prescribed drugs, abuse of prescription medication • Social media use • Sexual activity • Risk-taking activity i.e. gambling, addictive behaviour				
7.3 Social and community influences on health • Adverse childhood experiences • Citizen power and influence • Community cohesion, identity, local pride • Community resilience • Domestic violence • Family relationships • Language, cultural and spirituality • Neighbourliness • Social exclusion i.e. homelessness • Parenting and infant attachment • Peer pressure • Racism • Sense of belonging • Social isolation/loneliness • Social capital/support/networks • Third sector & volunteering				
7.4 Mental Wellbeing • Does this proposal support sense of control? • Does it enable participation in community and economic life? • Does it impact on emotional wellbeing and resilience?				
7.5 Living/ environmental conditions affecting health • Air quality				

• Attractiveness/access/availability/quality of area, green and blue space, natural space. • Health & safety, community, individual, public/private space • Housing, quality/tenure/indoor environment • Light/noise/odours, pollution • Quality & safety of play areas (formal/informal) • Road safety • Urban/rural built & natural environment • Waste and recycling • Water quality				
7.6 Economic conditions affecting health • Unemployment • Income, poverty (incl. food and fuel) • Economic inactivity • Personal and household debt • Type of employment i.e. permanent/temp, full/part time • Workplace conditions i.e. environment culture, H&S				
7.7 Access and quality of services • Careers advice • Education and training • Information technology, internet access, digital services • Leisure services • Medical and health services • Other caring services i.e. social care; Third Sector, youth services, child care • Public amenities i.e. village halls, libraries, community hub • Shops and commercial services • Transport including parking, public transport, active travel				

7.8 Macro-economic, environmental and sustainability factors • Biodiversity • Climate change/carbon reduction/flooding/heatwave • Cost of living i.e. food, rent, transport and house prices • Economic development including trade • Government policies i.e. Sustainable Development principle (integration; collaboration; involvement; long term thinking; and prevention) • Gross Domestic Product • Regeneration				
---	--	--	--	--

Stage 3

Summary of key findings and actions Please answer question 8.1 following the completion of the EHIA and complete the action plan

Key findings: Impacts/gaps/opportunities	Actions (what is needed and who needs to do) to address the identified mitigation and recommendations	Lead		

--	--	--	--	--

Alternatively, if appropriate, please explain the steps taken to consult with and consider the differential impact of the changes on the various protected characteristic groups (part 2) or any specific identified population groups (part 3).
