

Risk Reference and Link to Strategic Priority	Risk Description	
<p>SRR1</p> <p>Strategic Priority 1</p> <p><i>“Influencing the wider determinants of health.”</i></p>	<p>There is a risk that: We fail to deliver our role to influence a system shift to prevention, reduce health inequalities and address determinants of health.</p> <p>Caused by:</p> <ol style="list-style-type: none"> 1. Poor alignment of PHW specialist resources, capabilities and programmes with our long-term strategy 2. Failure to generate the quality of evidence and supporting data to shape our influencing and delivery 3. Insufficient/Ineffective public health advice, evidence and action <i>within our remit</i> 4. Ineffective engagement with and communication to partners, the public and policymakers 5. Insufficient system leadership and co-ordination with stakeholders and partners 6. Programmes which do not support our population in achieving healthier lives <p>Resulting in:</p> <p>We fail to have the impact required to reverse the worsening healthy life expectancy of the population of Wales. Wales fails to close widening gaps in health outcomes between our most and least deprived populations.</p>	
<p>Executive Director Sponsor</p>	<p>National Director of Health and Wellbeing</p>	
<p>Assuring Committee</p>	<p>Knowledge, Research and Information Committee</p>	
<p>Trend</p>	<p>Current Position of Risk Including Risk Appetite and Risk Decision</p>	<p>Position Statement – Executive Director Update</p>
<p><i>*to be confirmed via a run chart after monitoring for 3 months, will be produced via excel/pivot table to visualise risk score trend over time*</i></p>	<div data-bbox="432 1002 1373 1377"> <div style="border: 1px solid black; padding: 5px; margin-bottom: 10px;"> <p>Open</p> <p>PHW is open to consider all potential options, subject to continued application and/or establishment of controls recognising that there could be a high risk of exposure.</p> </div> <p>The chart displays a risk score trend over time. The x-axis represents time with markers at 0, 5, 10, 15, 20, and 25. The y-axis represents the risk score. A horizontal bar is divided into segments: green (0-5), yellow (5-10), orange (10-15), and red (15-20). A purple 'X' is positioned above the score 6 at time 5, and a blue 'X' is positioned above the score 9 at time 10. A blue arrow points from the 5 mark on the x-axis to the 20 mark on the x-axis.</p> </div>	<p>We have completed the first phase of our work on advocacy for this. We advocated for policy messages which support prevention (e.g. the Future Generation Commissioners Report) we are now working to create the conditions for Prevention to be embedded and effective across our own services and others. We have launched our first Prevention based framework for health and care, have seconded someone into Welsh Government to assess the prevention architecture and are supporting a system wide assessment of preventive spend as well as establishment of a prevention advisory group chaired by the CMO. Our</p>

	<p>Risk Appetite</p> <p> = Current Score</p> <p> = Target Score</p>	<p>next tasks will be to bring together our internal tactical plan for the next phase of the shift to prevention which will cover our role in leading and influencing a system-wide shift towards prevention, tackling health inequalities, and addressing the broader determinants of health. We recognise the risk that, without effective alignment of our resources, evidence, partnerships, and programmes, we may fall short in delivering the transformative impact required to improve the health and well-being of the people of Wales.</p> <p>To mitigate this risk, we are committed to:</p> <ul style="list-style-type: none"> • Aligning our strategic priorities and specialist capabilities to focus on prevention and equity as core drivers of population health. • Generating and mobilising high-quality evidence and data to inform policy, shape delivery, and support system-wide decision-making. • Providing timely, trusted, and impactful public health advice that supports action across sectors and communities. • Strengthening our engagement and communication with partners, the third sector, policymakers, and the public to build shared understanding and collective action. • Exercising system leadership by convening, coordinating, and collaborating with stakeholders to drive integrated, long-term solutions. • Designing and delivering programmes that are inclusive, evidence-based, and responsive to the needs of our most disadvantaged populations.
--	--	---

		It should be recognised that this is ongoing work and simply by influencing the system shift to prevention, this alone may not reverse the worsening healthy life expectancy of the population of Wales or reduce the gaps in health outcomes between our most and least deprived populations.
