

Finance, Strategic Planning and Performance Directorate

The placements will offer the opportunity to gain an understanding of activity within Finance, Strategic Planning and Performance.

The opportunities will allow individuals to gain an understanding of financial systems and processes within a public organisation, in addition to learning about the links between strategic planning and finance.

During the placement there will be an opportunity to work on specific finance and strategic planning and performance projects (depending on the time of the placement), through shadowing and working with colleagues from different divisions, whilst also attending and contributing to meetings in accordance with the schedule of work required at the time.
