

Policy, Research and International Development (PRID)

The Policy, Research and International Development Directorate supports the development of, and are advocates for, policies to improve health and well-being and reduce inequalities in Wales and abroad.

The Directorate consists of three Divisions which work closely together and are supported by the Business Support and Administrative Team:

- Public Health Policy
- International Health
- Research and Development

We aim to ensure that local, national and international learning from policies, research and practices are brought together to support the broader organisation and our partners across Wales and abroad.

This placement is suitable for students with an interest in Research, Policy and Business Management. The placement is flexible to suit the placement individuals need and will include various tasks.
