

BREAST TEST WALES

UPTAKE MAPPING

by Lower Layer Super Output Area (LSOA)

Screening Round 6

(for the approximate period Jun 2003 – Feb 2012)

Produced by Screening Informatics, Screening Division, Public Health Wales

Notes

Aim of Programme

Breast Test Wales is responsible for the NHS breast screening programme in Wales. The aim of the breast screening programme is to reduce morbidity and mortality from breast cancer.

Eligible Population

Women registered with a Welsh GP who are aged 50-70 (or 49 if screening is in their area and they are 50 within the year).

Uptake Target

>=70% of those invited for screening attend.

Lower Layer Super Output Area (LSOA)

Each LSOA meant to have comparable population

Minimum number of residents: 1000

Maximum number of residents: 3000

Number of LSOA's in Wales (2011 Census): 1909

'No data reportable'

If number of screening participants <30 the data was deemed not reportable

Round 6

Screening was introduced in different areas at different times – round 6 is the most complete all-Wales screening round and explains the elongated Jun 2003 – Feb 2012 time period
