## **Notes**

### **Aim of Programme**

Breast Test Wales is responsible for the NHS breast screening programme in Wales. The aim of the breast screening programme is to reduce morbidity and mortality from breast cancer.

### **Eligible Population**

Women registered with a Welsh GP who are aged 50-70 (or 49 if screening is in their area and they are 50 within the year).

### **Uptake Target**

>=70% of those invited for screening attend.

### **Lower Layer Super Output Area (LSOA)**

Each LSOA meant to have comparable population

Minimum number of residents: 1000

Maximum number of residents: 3000

Number of LSOA's in Wales (2011 Census): 1909

### **'No data reportable'**

If number of screening participants <30 the data was deemed not reportable.

### **Latest Screening Round**

Screening was introduced in different areas at different times. The latest screening round per GP practice has been identified (as at 18/01/2015) and the resident postcode of the invited cohort of women used to map LSOA.
