

1. Percentage of women who booked MLC

2020 = 44%

2021 = 44%

2022 = 45%

2. Percentage of women birthed MLC

2020

MLC Births = (373 (AMU) + 203 (FMU) + 96 (home)) = 672

Total births (37 – 42 weeks) = 3239

Total birthed MLC = 20.7%

2021

MLC Births = (444 (AMU) + 145 (FMU) + 64 (home)) = 653

Total births SBUHB (37 – 42 weeks) = 3192

Total birthed MLC = 20.4%

2022 (Jan – June)

MLC Births = (254 (AMU) + 8 (home)) = 262

Total births SBUHB (37 – 42 weeks) = 1528

Total birthed MLC = 17.1%

3. Transfer from MLC to CLC (including ALL intrapartum, postnatal and neonatal transfers & nullips/multips)

(This data is available broken down into sub-categories)

2020

Home birth data not captured.

FMU 203 births + AMU 373 births = 576

Transfers = (78 (FMU) + 162 (AMU)) = 240

Total transfers MLC to CLC = 42%

2021

Home birth data not captured.

FMU 145 births + AMU 444 births = 589

Transfers = (37 (FMU) + 168 (AMU)) = 205

Total transfers MLC to CLC = 34.8%

2022

Home births suspended. FMU closed.

AMU 254 births

Transfers = 112

Total transfers MLC to CLC = 44%
